### International Code Council

ICC is the largest international association of building safety professionals that establishes a level playing field for builders and manufacturers. ICC develops the international codes and standards and applies that to product evaluation, accreditation, certification, codification, training, and technology.

### Canadian Construction Materials

**CCMC** assesses compliance with Canadian building, energy and safety codes. CCMC is the only construction code compliance service supported by the Government of Canada and is trusted by over 6,000 regulators across Canada.

### QUALITY CONTROL

**SUPERSEAL** Dimpled Membrane goes through independent 3rd party testing to ensure the highest standards to ensure building code compliance.

**SUPERSEAL** manufacturing facilities, and formulas are inspected quarterly by world wide group of independent 3rd party testing laboratories with ISO certification. This ensures safety and quality of all **SUPERSEAL** products, processes, and systems.

**SUPERSEAL** ICC, CCMC, Training Videos, Specifications, and MSDS are available online.

## DIMPLED FOUNDATION MEMBRANE

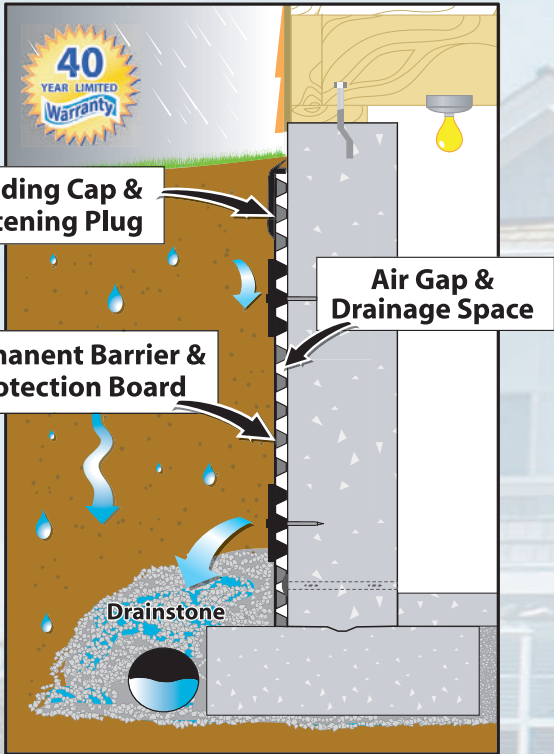

- ✓ Concrete, Block Foundations
- ✓ Insulated Concrete Forms (ICF)
- ✓ Wood Foundations
- ✓ Permanently Bridges Cracks
- ✓ Waterproofing & Drainage
- ✓ Permanent Barrier
- ✓ Inexpensive & Easy to Use
- ✓ 40 Year Warranty

# SUPERSEAL KEEPS YOUR HOME DRY

## ALL TYPES OF FOUNDATIONS

**SUPERSEAL** Dimpled Membrane can be used on all types of foundations including, concrete, concrete block, Insulated Concrete Forms (ICF), and wood. It can also be used in shotcrete & blindside applications.

**For use on all types of foundations including Concrete, ICF, block, and wood**

## BRIDGING FOUNDATION CRACKS

60% of all concrete foundation experience cracks within the first year of being poured. **SUPERSEAL** Dimpled Membrane is mechanically fastened allowing the wall to shift, crack, and settle without affecting its amazing performance.

### AIR GAP & DRAINAGE SPACE

**SUPERSEAL** Dimpled Membrane removes 100% of the hydro-static head water pressure off the face of the wall. It also provides a drainage space to allow the foundation wall to breathe.

### PERMANENT BARRIER & PROTECTION

**SUPERSEAL** Dimpled Membrane creates a permanent barrier between the backfill and the foundation. It also protects waterproof coatings from backfill materials.

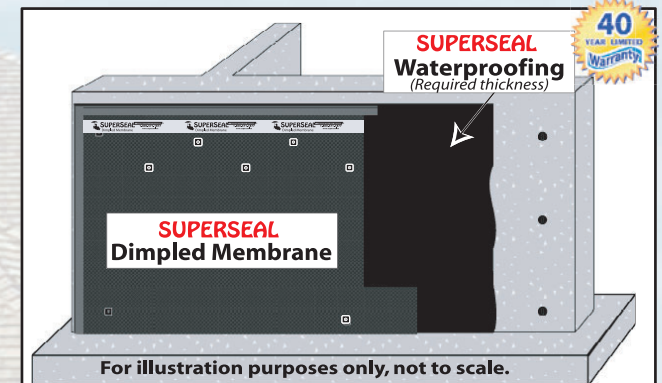

### WARRANTY COVERAGE

**SUPERSEAL** Dimpled Membrane is ICC & CCMC Evaluated for U.S.A. and Canadian building codes. It's backed by a 40 year warranty.

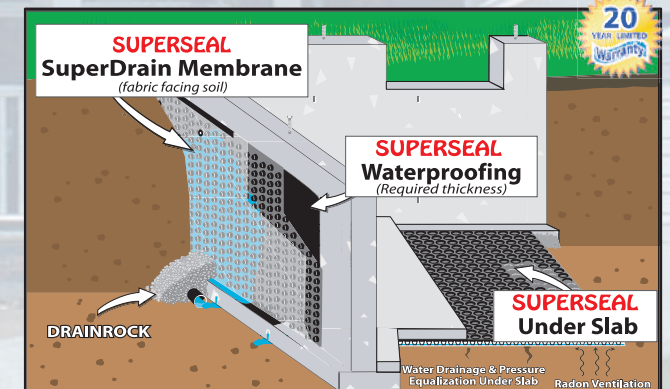

## WATERPROOF COATINGS

**SUPERSEAL** Instant-Set Waterproofing is the perfect compliment to **SUPERSEAL** Dimpled Membrane & SuperDrain Membrane. Rest easy knowing that **SUPERSEAL** has your home completely protected.

**SUPERSEAL** Dimpled Membrane protects the waterproof coating from backfill, removes 100% of the headwater pressure off the face of the wall, and creates a drainage space for moisture.

**SUPERSEAL** SuperDrain Membrane controls the flow of water, providing drainage away from your foundation. This creates, dryer and lighter soil loads, and reduces the stress on your foundation.
